The Airbus A320 family of aircraft recently surpassed Boeing's 737 family of jets for the total number of orders ever placed. It's a popular lineup and a core part of many airline fleets around the world. From the A318 to the A321, what are the key differences between the jets of the A320 family of ...

### Airbus A320 family - Wikipedia

The A318 can fly further than the A220-100. Quite a bit further (700km). This may be due to the fact that the A318 has more powerful engines than the A220, and can carry 3,000 more liters of fuel. But more fuel and more power doesn't mean more efficient, and it's likely that the engines are more expensive to run. Winner: A318

### How Aircraft In The Airbus A320 Family Differ - News AKMI

The A320 was the model aircraft for Airbus that pushed the company to become a household name. With more than 400 orders before the aircraft even took flight (especially compared to the earlier A300 that only had 15 orders), the A320 series would quickly become a staple product for the company. However, only one year after the A320 family launched, Airbus announced a further derivative of ...
