### **Are You Ready for Calculus? - COLE'S WORLD OF MATHEMATICS**

Getting ready for calculus is easy as long as you have the right tools and you know where to begin. After teaching calculus for over 15 years, I can honestly say there are certain skills that are essential for students to know prior to their first day and that is what this ready-made assessment is all about.

### **Are You Ready for Calculus?**

A function is a set of points  $(x, y)$  such that for every  $x$ , there is one and only one  $y$ . In short, in a function, the  $x$ -values cannot repeat while the  $y$ -values can. In AP Calculus, all of the graphs will come from functions. The notation for functions is either " $y =$ " or " $f. (x) =$ ".
