### Assessing Families and Couples: From Symptom to System

Appealing to both experienced and novel therapists, *Assessing Families and Couples* portrays a clear picture of what occurs in a two-session model in conducting a family therapy assessment. In the absence of a videotape to depict the process of therapy, readers can still visualize the details of the therapeutic journey in a step-by-step manner.

### Assessing Families and Couples: From Symptom to System

The Four Step model for assessing families and couples is an especially significant contribution for a teaching and learning tool in working with students who may be new to family social work practice. I am especially drawn to the richness the cases provide for making the theory and actual practice skills come alive.
