Since no UDP packet is guaranteed, if you receive a UDP packet, the largest safe size would be 1 packet over IPv4 or 1472 bytes. Note -- if you are using IPv6, the maximum size would be 1452 bytes, as IPv6's header size is 40 bytes vs. IPv4's 20 byte size (and either way, one must still allow 8 bytes for the UDP header).

Biology Final Review Packet Answers

Concepts of Biology is designed for the typical introductory biology course for nonmajors, covering standard scope and sequence requirements. The text includes interesting applications and conveys the major themes of biology, with content that is meaningful and easy to understand.

Regents Prep [Professional Exam Review Courses] Online ...

Metaphors in biology are often encountered in the description of cell structure and function. Describing the cell as a "city" is a case in point as it offers a good opportunity to get students thinking about the structural and functional details of their knowledge as well as to require them to "think outside the box."
