Gerda Horneck studied biology at the universities of Bonn, Marburg, and Frankfurt, Germany, where she received a diploma in biology and a Ph.D. in microbiology in 1967. She is former Deputy Director of the Institute of Aerospace Medicine of the German Aerospace Center DLR and former Head of its Radiation Biology Section.

Ignore fields from Java object dynamically while sending ...

Biology is the scientific study of life. It is a natural science with a broad scope but has several unifying themes that tie it together as a single, coherent field. For instance, all organisms are made up of cells that process hereditary information encoded in genes, which can be transmitted to future generations. Another major theme is evolution, which explains the unity and diversity of life.
