Most biology classes will have some form of dissection - the frog is the most common. However, if you do not do an actual dissection, many of the sections below contain links to virtual dissections and image files. I also have resources at anatomycorner.com for classes that are focused on human anatomy and cat dissections.

The purpose of this guide is to describe the anatomy of the cat with references to human anatomy, using the learning tool of mammalian dissection. Important terms of cat anatomy are introduced in bold face type, which serves to emphasize them. Going beyond the visual investigation of charts, models, lists of terms, and lectures, dissection engages the student to examine real structures using the additional sense of touch.
