work for from adopting Plant Design Suite for our food processing and dairy projects. we would like to switch from AutoPlant for these projects.

## **Engineering drawing abbreviations and symbols - Wikipedia**

All sanitary drainage systems should be connected to the public sewer system (wherever available) at the nearest possible point. In case the public sewer system is not available, a safe and non-polluting drainage system must be ensured. The drainage system should be so designed as to guard against fouling, deposit of solids and clogging.
