The engineering mode password isn't really a very well-kept secret either. It lets you do a few things you normally can't. Most of which are things that aren't really super important to day to day use and can really mess stuff up: Change WWN, Part numbers, Serial Number, etc.

MTK Engineering Mode for Android - APK Download

I've seen a few people mention engineering mode and that it has calibration settings for the proximity sensor, which I've been having issues with. I read that the code is *#808#, but after I type that in the dialer, the text disappears and nothing happens. I found about 3 or 4 other codes around online, but none of them worked.
