Siemens / ITE / Murray / Square D / Cutler Hammer Kit K

...

Eaton's double-throw safety switches include two interlocked switches with a common connection used to transfer service from a normal power source to an alternate source, or to switch from one load circuit to another. The interlock ensures both switches cannot be closed at the same time, preventing them from being operated in parallel.

Double Throw Safety Switch | General Duty | Knife | Eaton

The Interlock Kit is simple and ingenious; it provides a mechanical Interlock, which acts as a manual transfer switch so that the utility and generator breakers cannot be turned on at the same time. The Kit isolates the two systems so that power from the generator will never back feed into utility lines, and vice-versa.

Automatic Transfer Switch - electricalpartmanuals.com

The Cutler-Hammer transfer switch is a rugged, compact design utilizing insulated case switches or insulated case circuit breakers to transfer essential loads from one power source to another.
