What is Data Domain Boost and what is it used for?

Data Domain Boost for Enterprise Applications Perform backups from third-party applications using Data Domain Boost (DDBoost). In certain environments, a database administrator

Download File PDF Dd Boost Admin Guide

or application owner can monitor backups and restores with DDBoost for Enterprise Applications (DDBEA) on the application host.

256 Boost for OpenStorage Administration Guide

Watch out that you keep the DD Boost clients up-to-date. Bad things happen if

Download File PDF Dd Boost Admin Guide

you don't. Without warning. Also, you need to consider using on-disc primary backup with archiving to DD Boost. A restore from DD Boost can take more than ten times the time your backup takes and is much slower than restoring from a DD Boost CIFS mount or similar.
