France (French:), officially the French Republic (French: République française), is a transcontinental country spanning Western Europe and several overseas regions and territories. Its metropolitan area extends from the Rhine to the Atlantic Ocean and from the Mediterranean Sea to the English Channel and the North Sea; overseas territories include French Guiana in South America and several ...

Digital Revolution Coming Postmodern University

Jean-François Lyotard (1924-1998) was a French philosopher whose best known work—often to his chagrin—was his 1979 *The Postmodern Condition*. Written at the request of the Council of Universities of the Provincial Government of Quebec on the state of knowledge in the contemporary world, this work brought the term “postmodernism”, already in use in other fields, such as the arts and ...

France - Wikipedia

Digital technologies and economic rationality based on performance are significant determinants of the commercialization of learning. Moving from physical face-to-face presence to virtual contact (synchronous and asynchronous), the learning space becomes disembodied, virtual not actual, impacting both student learning and the organization of schools, which are no longer buildings but websites.

New Left - Wikipedia

// one // Defining and Locating Digital Rhetoric. Because the term “digital rhetoric” appears in a wide range of locations—scholarly articles; in the title of courses offered in departments of communication, English, and writing; academic and popular blogs; discussion lists such as H-DigiRhet; and theses and dissertations in many fields of study—my initial impulse was to resist ...

(1) Ernest Greene, a University Of Georgia grad in his mid-20s who moved back home with his parents after failing to find work as librarian and made bedroom recordings as Washed Out.

The New Press | Books to Change Minds About Justice

Military technology is the application of technology for use in warfare. It comprises the kinds of technology that are distinctly military in nature and not civilian in application, usually because they lack useful or legal civilian applications, or are dangerous to use without appropriate military training.. The line is porous; military inventions have been brought into civilian use throughout ...

Jean Baudrillard (Stanford Encyclopedia of Philosophy)

In a 2009 presentation at University of California San Diego, Dr. Randell White, Professor of Anthropology at New York University, suggested that the overlapping horses pictured above might represent the same horse over time, running, eating, sleeping, etc. Perhaps these are far more sophisticated representations than we have imagined.
