In the new Cell Types Gizmo, students are introduced to the diversity of cells that exist in nature, from bacteria and protists to specialized animal cells such as neurons and red blood cells. Along the way, students will learn how to focus a microscope and how to apply special tests to determine if a sample is alive.

Upon completion of the Gizmo, lead your students through the discussion to answer the following: Which do you think is easier to use: metric units or U.S. units? Why? How could you use the Gizmo to figure out how many yards there are in a kilometer? Why is it important to be able to flip the tiles in the Gizmo?
