This should also help focus your review of the basic skills needed to do well on the ESM.

Oil & Gas Module Fabrication & Construction - EPC-M Industries

Gas was burned off or left in the ground. Despite attempts at gas transportation as far back as 1821, it was not until after the World War II that welding techniques, pipe rolling, and metallurgical advances allowed for the construction of reliable long distance pipelines, resulting in a natural gas industry boom. At the same time the petrochemical
