GCC online documentation - GNU Project - Free Software ...

GNU Make (short gmake) is the standard implementation of Make for Linux and OS X. It provides several extensions over the original Make, such as conditionals. It also provides many built-in functions which can be used to eliminate the need for shell-scripting in the makefile rules as well as to manipulate the variables set and used in the makefile. [14]

Make (software) - Wikipedia

GNU (GNU's Not Unix) is een in 1984 door Richard Stallman gelanceerd project met als doel een volledig vrij besturingssysteem voor computers te maken. GNU wordt uitgesproken als [guh-NOE] (terwijl het Engelse woord gnu wordt uitgesproken als [noe]), en is een recursief acroniem. GNU is nauw verbonden met de Free Software Foundation (FSF), die dit als het centrale project beschouwt van de ...
