### excel - How to generate an .xlsx using php - Stack Overflow

Health (6-12) Teen Health and Glencoe Health are application-based programs that teach the 10 critical health skills that align with the National Health Standards. While emphasizing social and emotional skills, these programs explore up-to-date information and statistics on timely, relevant topics to help students become health-literate individuals.

As others have mentioned, PhpSpreadsheet provides a nice library for this. Assuming you have it installed via composer and the vendor/autoload.php has been included in your project, you can use the function below to generate an xlsx from an array of arrays. I've included extensive comments here to help teach beginners about how PhpSpreadsheet works and what the code is doing:
