How To Use Manual Focus (And Still Get Sharp Images)

As noted in the video above, there are a couple of tricks that will help you make the most of manual focus. First, when manually focusing, you can use your camera's Live View feature to zoom in on the subject to check the focus. If the focus is off, you simply adjust the focus ring until the subject is tack-sharp. Second, you can lock focus that's been acquired in autofocus mode by focusing on the desired subject, and then switching into manual focus mode.
