Librivox.org is a dream come true for audiobook lovers. All the books here are absolutely free, which is good news for those of us who have had to pony up ridiculously high fees for substandard audiobooks. Librivox has many volunteers that work to release quality recordings of classic books, all free for anyone to download. If you've been looking for a great place to find free audio books, Librivox is a good place to start.

4 The major difference between a maglev train and a conventional train is that the former does not have an engine—at least not the kind of engine used to pull typical train cars along steel tracks. Instead of using fossil fuels, the magnetic field created by the electrified coils in the guideway walls and the track combines to propel the train.
