While modern books are born digital, books old enough to be in the public domain may never have seen a computer. Google has been scanning books from public libraries and other sources for several years. That means you've got access to an entire library of classic literature that you can read on the computer or on a variety of mobile devices and eBook readers.

Mark Rosengarten - YouTube

One of the necessities and must-haves in our homes is furniture. It wouldn't look like a real home without furniture if you think about it. Because of that, we should be wise about what we choose to bring into our homes.
