Hairballs in Cats: Causes, Symptoms, and Remedies

Prevention of hairballs has been an important part of keeping your rabbit healthy. Prevention usually consists of daily grooming, cat hairball medication, pineapple juice or papaya enzyme. It is theorized that these fruits have an enzyme that helps breakdown hair. Unfortunately, this has not been scientifically proven.

Noninfectious Diseases of Rabbits - Exotic and Laboratory ...

Hairballs in cats are more likely to appear in long-haired breeds, such as Persians and Maine Coons. Cats that shed a lot or who groom themselves compulsively are also more likely to have hairballs, because they tend to swallow a lot of fur. You may have noticed that your cat didn't have hairballs as a kitten, but developed them as she grew.

Matted Hair and Hairballs in the Stomach in Rabbits | PetMD

Digested hairballs in rabbits are also known as trichobezoars or wool block. Because the digestive system of a rabbit is slow, hair, along with other materials can accumulate there, causing pain and abdominal distension. Digested hairballs in rabbits occur when rabbits groom themselves.
