Q. What is this coil spring that came with my rain gauge? It is a stainless steel filter which is included in the package. It's aimed to stop leaves or bird droppings to avoid the obstruction of the cone hole. The installation is simple: press the filter until the hook is inside the outlet hole and self -locked.

The purpose of the Approved Check Pilot Manual is to provide policy, direction and guidance for the nomination, training, ACP accreditation and monitoring of ACPs. This manual also provides policy, direction and guidance with respect to flight checking, namely Pilot Proficiency Check (PPCs) and line checks. 1.2 Applicability

### TP 6533 - Approved Check Pilot Manual - Transport Canada

A minimum storage capacity of 5000 gallons is recommended for domestic cisterns. This capacity should eliminate having to buy or haul water, a practice that is not only inconvenient but can become somewhat costly. Remember these words of wisdom when designing your roof-catchment cistern: "You pay for a large cistern once and a small one forever..."
