Specs

I have a 109 which has been retro fitted with a V8 (assuming a 3.5). I'm trying to find the engine ID so I can confirm exactly what spec it is. I've read that there should be a number stamped on the block in-between the two middle exhaust ports by the dipstick. It's very tight on that side of the engine bay in mine.

1.30.11.07

The later large capacity Range Rover V8's have twin plenum injection systems and distributor-less ignition, this one is only a single and has a distributor. That suggests it is only a 3.5 or 3.9litre.
