Solution-Focused Brief Therapy (SFBT) is a therapeutic model and interviewing skill set that uses open-ended questions to identify solutions rather than an exhaustive examination of problems. As the name suggests, SFBT is future-focused, goal-directed, and focuses on solutions, rather than on the problems.

## **Certification - Institute for Solution-Focused Therapy**

Solution-focused therapy, also called solution-focused brief therapy (SFBT), is a type of therapy that places far more importance on discussing solutions than problems (Berg, n.d.). Of course, you must discuss the problem to find a solution, but beyond understanding what the problem is and deciding how to address it, solution-focused therapy will not dwell on every detail of the problem you are experiencing.
