The Future of the Curriculum: School Knowledge in the ...

The Curriculum of the Future: From the "new Sociology of Education" to a Critical Theory of Learning. Looking forward, Young discusses how most developed countries have high levels of participation in post-compulsory education, but still use curricula designed for a time when only the elite pursued further education. He argues the need to rethink post-16 education to shift focus onto vocational education, school-work issues and lifelong learning.

Three Trends That Will Shape the Future of Curriculum ...

Curriculum for the Future won't tell you what the future of education should look like, but it can be used to open up big questions about schooling, teaching, and curriculum that we don't always have time or space think about in our day-to-day work. Like: Who decides what it is important to learn?

Curriculum for the future

Any discussion on the future of work should go hand-in-hand with a discussion on the future of a diverse curriculum that caters to every need of a child in this 21st Century. Problem-solving, creative thinking, digital skills, and collaboration are needed more than ever in our primary schools.
