The Kubernetes Book: Amazon.co.uk: Nigel Poulton ...
With Kubernetes, you can develop your applications on your laptop, deploy to your chosen cloud platform, migrate to a different cloud platform, and even migrate to your private cloud at your on-premises datacenter.The Kubernetes Book starts from the beginning and covers everything you need to know to be proficient with Kubernetes.

Book Review - "The Kubernetes Book" by Nigel Poulton ...
Nigel, on the other hand, literally wrote the book. And then he re-wrote it-taking into consideration how boring it would be to listen to pages and pages of someone reading code. There are a couple of times in this book where he reads YAML to you, but it is usually abridged because he is fully aware of what the listener is experiencing.

The Kubernetes Book by Nigel Poulton
Nigel Poulton Nigel is a self confessed technology addict who is hell-bent on creating the best Kubernetes and cloud learning resources on the planet. He's the author of over 16 video training courses at Pluralsight, as well as more at A Cloud Guru, Udemy and more...
