### The Logic Book with Student Solutions Manual

You are reading this book. This is a logic book. You are a logic student. This is not a terrible argument. Most people who read this book are logic students. Yet, it is possible for someone besides a logic student to read this book. If your roommate picked up the book and thumbed through it, they would not immediately become a logic student.

### bgillette.com

An illustrated Book of Bad Arguments by Ali Almossawi. Bringing the internet age a much-needed dose of old-school logic, the book takes on the logical misconceptions and makes it wonderfully entertaining. It is a collection of flaws that reintroduces the readers to fundamental notions of logical discourse, the world of logic.

The Logic Book is a leading text for symbolic logic courses that presents all concepts and techniques with clear, comprehensive explanations. There is a wealth of carefully constructed examples throughout the text, and its flexible organization places materials within largely self-contained chapters that allow instructors the freedom to cover the topics they want, in the order they choose.
