V Twin Engine Plans

This is a V-Twin engine that is machined entirely from bar stock. It has no prototype as it is entirely my own design. Being a single crank pin 90 degree engine, it is extremely smooth and vibration free. V type engines other than 90 degree can not be balanced except with special balancer shafts, etc. that you wouldn't want!

Howell V-Twin 4-Cycle Gas Engine Plans

Rotary Twin Engine: An easily machined twin cylinder steam engine with a rotary valve. 5 Pgs 4.4 MB: Simple Engine: A simple vertical rotary valve engine from the 1930s, though castings are called for, but you could substitute CNC machined billet parts fairly easily. Plans include a boiler.
